Thanks. Looks good. Only comment is to clarify that all large systems (greater than 50,000) must install CCT regardless of the lead and copper results. We mention in the WQP section. Thoughts?

Here you go – this one is 1.5 pages instead of 4.

Hi,

I don't recall seeing another version on the LCR fact sheet. Can you resend the shortened version?

Tx-Doug

Ok. I'll send both factsheets to Jeff/Javier. Just to clarify – I'll send the shortened version of the general LCR factsheet correct?

Looks good. Please send to Jeff/Javier. I would resend the general LCR Fact Sheet for Pete. Also, your call if you want to send to DECA again before sending to Javier. Thanks

OK – instead of adding a definition of “inadequate” (I looked for one in the CFR to be consistent but didn’t find one) I changed the word to “insufficient”... which I think works better actually. I built in the national LCR compliance issues into the list of issues we identified for NJDEP (which were in the original, longer factsheet), but without as much detail (I figure if the RA asks about national issues then we can give him more info).

What do you think?

Hi,

Looks good and nice job capturing the essence, with one suggestion. Can we add in something to define inadequate? Perhaps we could list the NJ deficiencies, instead of the national deficiencies, and say similar to the national deficiencies? Thoughts?

Re-attaching the NOI factsheet – made a few changes to the EPA oversight section.

OK here are my suggested revisions. I could probably trim the LCR general factsheet down more (it's currently 1.5 pages) but thought I'd run this version by you first.

Subject: FW: Final Factsheets - NOI on LCR in Newark and General LCR

Hi Christine,

Please let me know if you wish to discuss thoughts on how to make these shorter. We could delete some of the background information from the NRDCO NOI fact sheet. I'm not sure we could make the general LCR fact sheet much smaller.

Hi, we need to make these shorter. I don't think the RA will have time to go over all the details we are offering here. I will keep a copy and read it for my information, both documents are excellent.

Thank you,

Javier

Subject: Final Factsheets - NOI on LCR in Newark and General LCR

Hi Javier, Hi Jeff –

Attached are the final versions of factsheets on the NRDC/NEW NOI to sue NJDEP on LCR implementation in Newark, and on the LCR in general. These were reviewed by DECA and ORC, and I incorporated their comments.

Please send these factsheets to the RA for his information, CCing Nicole Kraft, Doug McKenna, Phyllis Feinmark, Paul Simon and Pat Evangelista (and anyone else you think would be appropriate that I forgot).

Let me know if you have any questions or need any additional information.

Thank you!
